MC310 DIRECT-TO-CARD PRINTER

The Matica MC310 direct-to-card printer offers reliable and consistent high-quality printing, along with a host of encoding, lamination and communication options. With a resolution of 300 x 300 dpi, the MC310 is available with special ribbons for added visual security or printing onto non-PVC cards.

KEY STRENGTHS

- ✓ Up to 180 cards per hour
- ✓ Four-year warranty
- ✓ Colour and monochrome
- ✓ High quality and reliability
- ✓ 100-card hopper
- ✓ Rewritable card function
- ✓ Print via the cloud
- ✓ Databac Connect compatible

OPTIONAL

- ✓ Contact / contactless chip encoding
- ✓ Lamination unit
- ✓ Magnetic stripe encoding
- ✓ Dual-sided activation kit

CARDEXCHANGE CLOUD SUITE

Card printing on the Matica M310 can be managed from the cloud, using CardExchange's Cloud Suite solution. It offers centralised ID card management through a Controller CMS, a self-service portal and card printing software.

SAAS SOLUTION

Hosted and built on Microsoft Azure™, Cloud Suite uses proven technologies to guarantee high-level security, speed and productivity. As a SaaS solution, deployment is easy and instant and updates are automatic. Moreover, while fully scalable, you only pay for 'Active ID' records.

CARD PRODUCTION

Cloud Suite manages ID card production with a customised version of the popular CardExchange® Producer software. Central or de-central enrolment, local or network printing – it can all be done with just one click of a button.

COMPLETE ID SOLUTIONS PHYSICAL AND DIGITAL

Databac offers a host of cloud-based solutions, from instant ID as a service, through visitor management, to the issuance and management of mobile credentials for access control and vending. As a card manufacturer, Databac can provide custom cards incorporating a choice of technologies, as well as a host of products to wear, store and display ID cards.
